Our Mission:

The Friends of the Great Sauk State Trail was established in 2015 as a nonprofit, 501(c)(3) organization, with a mission to enhance, promote, manage, and advocate for the continued development of the Great Sauk State Trail, a nearly 13 mile multi-use trail connecting the Sauk Prairie community to Devil's Lake State Park, Wisconsin's most visited state park.

To make the trail the world-class attraction it should be, the friends group aims to raise \$1.5 million to construct Phase 2 to Devil's Lake. The friends group is also charged with enhancing the trail by installing signs, art, benches, and other amenities to make the trail experience safe, educational, and – most importantly – unforgettable.

To pursue this mission, the Friends of the Great Sauk State Trail depend on contributions from people like you. Consider making a tax-deductible donation or volunteering your time.
